

Tree Questions

- Describe the issue you're seeing with the tree.
 - When did you notice it?
 - What parts of the tree are involved with the issue? Canopy, Separate Branches, Trunk, Leaves, Root Area
- Do you know the tree species?
- How long has it been in the Landscape? How large is the tree?
- Maintenance
 - Is the tree (or surrounding area) watered
 - How often?
 - How much?
 - Is there standing water from any source near the tree?
 - Is the tree or adjacent area fertilized?
 - Any recent insecticide/herbicide applications in the immediate area?
 - Has there been any recent tree trimming/limb removal?
- Is there evidence of insects on the tree? Borer holes? Weeping?
- Has there been any digging or construction in the area around the tree?

Please provide photos of the tree. Include:

- The affected area(s) (include any insect activity if that is involved)
- Leaves (sample of affected and unaffected if possible)
- Trunk (including at ground level/root flare)
- Overall picture (including surrounding landscaping, if possible)
